Dear Mr. Whalen:

Thank you for your letter of May 6, 1983, concerning the Federal Capital Improvements Program funding proposal for the Central Intelligence Agency headquarters consolidation. We have advised the full Commission and CIA of your interest and concern regarding the plans for off-site road improvements and possible alternatives to relieve traffic conditions in the area. At its meeting on June 2, 1983, the Commission requested CIA to reassess its traffic assumptions and findings with respect to alternatives previously considered for access to the site.

The CIA staff has reiterated to our staff in recent discussions that it remains fully committed to coordinating with affected community organizations on plans for the off-site road improvements, as well as the site and landscape plans for the consolidation project.

If you have concerns regarding the coordination of the project during the coming months, please contact Robert Gresham of our staff, on 724-0191.

Sincerely,

Reginald W. Griffith
Executive Director
